## LETTER FROM THE CHAIRMAN

Dear Fellow Conservative,

The American Conservative Union Foundation's Center for Legislative Accountability (CLA) is proud to present our Ratings of the Minnesota legislature for 2019. Like our *Ratings of Congress*, which date back 48 years, the CLA's Ratings of the States are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy (conservatism is the political philosophy that sovereignty resides in the person) and then apply the correct purpose of government (its essential role is to defend Life, Liberty and Property).

As a 501(c)(3) educational endeavor, these Ratings serve as a retrospective analysis to explain to voters, the media, scholars and activists how consistently lawmakers apply conservative principles when casting votes. The CLA evaluates over 100,000 bills and ultimately selects around 2,000 bills to produce scorecards for Congress and all 50 states.

Our American Experiment in self-governance depends on our ability as citizens to evaluate whether our elected officials implement policies that help people live happier, healthier, more productive lives. The CLA's *Ratings of the States* equips citizens with clear and effective analysis to hold the nation's 8,000 lawmakers accountable for their votes.

The Left has renewed its commitment to advance socialism in their zeal to fundamentally transform America. With such an important fight ahead, it's never been more important for our elected officials to understand the proper role of government and for Americans to defend our conservative values and take action to preserve liberty.

Sincerely,

Matt Schlapp  
Chairman

American Conservative Union Foundation

## SELECTING THE VOTES

ACU researched and selected a range of bills before the Minnesota Legislature that determine a member's adherence to conservative principles. We selected bills that focus on Ronald Reagan's philosophy of the "three-legged stool": **1) fiscal and economic:** taxes, budgets, regulation, spending, healthcare, and property; **2) social and cultural:** 2nd amendment, religion, life, welfare, and education; and **3) government integrity:** voting, individual liberty, privacy, and transparency. This wide range of issues are designed to give citizens an accurate assessment that conveys which of Minnesota's elected leaders best defend the principles of a free society: Life, Liberty and Property.

## MINNESOTA SENATE STATISTICS

### MINNESOTA SENATE CONSERVATIVE RATINGS

RED = REPUBLICANS

BLUE = DEMOCRATS

# OF  
STATE  
SENATORS

2019 ACUF PERCENTAGE

## MINNESOTA SENATE VOTE DESCRIPTIONS

1. **SF 761 Incentivizing Obamacare Enrollment through an Additional Tax Advantage.** The Klein (ACUF Lifetime 7%) amendment to a bill concerning health insurance premiums is designed to entice individuals to enroll in the state's Obamacare exchange (MNSure) by providing enrollees an additional tax advantage. Under the amendment, individuals who are eligible for tax credits under Obamacare may receive the credits early and apply them directly to insurance premiums. ACU has long opposed Obamacare and its subsidy program, opposes this scheme to entice people to enroll in a broken health insurance system by further socializing health care and creating another avenue for subsidy fraud and opposed this amendment. The Senate defeated the amendment on March 11, 2019 by a vote of 30-34. (The bill failed to advance in the House.)
2. **HF 50 Imposing Additional, Excessive Regulations on Phone Usage while Driving.** This bill further expands the state's ban on talking, texting or web-searching on mobile devices while driving to now also ban the usage of a phone as a navigation device unless it is done in a hands-free manner. Furthermore, the bill imposes numerous other restrictions on how phones are handled while driving and imposes a \$275 fine for violations. ACU opposes this excessive regulation and fining motorists for the responsible use of cellphones absent any other driving safety infractions and opposed this bill. The Senate passed the bill on April 11, 2019 by a vote of 48-12 and the bill was signed into law.
3. **SF 2314 Increasing Spending on Unnecessary Environmental, "Clean" Energy and Recreational Programs.** The Eaton (ACUF Lifetime 7%) amendment to the omnibus environment and natural resources bill appropriates tens of millions of taxpayer dollars to numerous, costly and unnecessary programs relating to environmental conservation, "clean" energy and recreation. For example, in addition to funding community solar and "clean" energy storage systems, the amendment provides \$4 million for the Loon Foundation to construct a 15,000 square foot facility intended to educate the public about loons and their environment. ACU opposes spending scarce taxpayer resources on unnecessary projects, especially considering the Loon Foundation has already received private and federally funded contributions it considers "numerous and generous," and opposed this amendment. The Senate defeated the amendment on April 23, 2019 by a vote of 33-34. (Many of the unnecessary programs were funded in a later version of the bill which was signed into law.)
4. **SF 2227 Authorizing Collective Bargaining Agreements without Commission Approval.** The Bakk (ACUF Lifetime 6%) amendment to the omnibus state government appropriations bill provides union bosses the ability to usurp the role of management to approve any public-sector collective bargaining agreement regardless of the provisions and cost to taxpayers. Specifically, the amendment declares that during the time the legislature is not in session, and if the Commission of Management and Budget does not disapprove a collective bargaining agreement within 30 days, the "agreement" is automatically approved. ACU opposes efforts to grant union bosses unilateral authority to award themselves sweetheart deals and hold taxpayer funds hostage, supports efforts to provide transparency and the opportunity for negotiation for all government transactions and opposed this amendment. The Senate defeated the amendment on April 25, 2019 by a vote of 33-33. (The bill failed to advance out of conference committee.)
5. **HF 2181 Socializing Broadband Expansion Costs.** The Simonson (ACUF Lifetime 4%) amendment to the omnibus economic development bill appropriates \$40 million over two years to the border-to-border broadband grant program. Under the amendment, 50% of the infrastructure costs for grantees' projects expanding broadband are eligible for subsidies. ACU believes the market is the best mechanism to determine the need for broadband and opposes forcing taxpayers in one region of the state to subsidize the amenities of individuals who choose to reside in rural portions of the state and opposed this amendment. A decisive vote occurred to uphold the senate president's ruling that the amendment was not germane. The Senate voted to uphold the senate president's ruling and defeat the amendment on April 29, 2019 by a vote of 35-31 and the bill was signed into law. (A "yes" vote supported the ACU position.)

6. **HF 2208 Forcing Employers and Employees to Join a State-Run Paid Family Leave Program.** The Kent (ACUF Lifetime 11%) amendment to the omnibus economic development bill forces employers and employees to pay into a state-run family leave program or offer an equivalent private plan. The program provides up to 12 weeks' paid family leave with payments ranging from 55% to 90% of employees' weekly wages. Additionally, the amendment imposes numerous requirements on employee access to paid leave and subjects employers to new avenues of frivolous litigation. ACU believes employers and employees should be free to negotiate their own benefits, opposes this infringement of the right to contract, which may limit the ability of employees to receive other benefits or job perks, and opposed this amendment. A decisive vote occurred to uphold the senate president's ruling that the amendment was not germane. The Senate voted to uphold the senate president's ruling and defeated the amendment on April 29, 2019 by a vote of 36-31. (A "yes" vote supported the ACU position. The bill failed to advance out of conference committee.)

---

7. **HF 2208 Combatting a Politicized Global Warming Agenda.** The Osmek (ACUF Lifetime 87%) amendment to the omnibus economic development bill combats a politicized global warming agenda by clarifying that human activity is a "contributing factor" as opposed to a "key cause" of climate change. ACU supports all sources of energy, believes government should not favor one source of energy over another, and supported this amendment as a step in the right direction. The Senate adopted the amendment on April 29, 2019 by a vote of 36-30. (The bill failed to advance out of conference committee.)

---

8. **HF 2208 Reimposing Obama-Era Internet Privacy Regulations.** The Latz (ACUF Lifetime 11%) amendment to the omnibus economic development bill is designed to reinstate Obama-era regulations of internet service providers (ISPs) which were overturned by Congress and the Trump administration. The amendment regulates the way consumer data is collected and violates the freedom to contract by forcing ISPs to provide their services to customers even if they don't agree to the terms concerning data collection established by the ISP. ACU opposes this infringement of the right to contract, supports an internet free of heavy-handed government regulations, which has allowed it to thrive since its conception and opposed this amendment. A decisive vote occurred to uphold the senate president's ruling that the amendment was not germane. The Senate voted to uphold the senate president's ruling and defeated the amendment on April 29, 2019 by a vote of 35-32. (A "yes" vote supported the ACU position. The bill failed to advance out of the conference committee.)

---

9. **HF 2208 Providing Local Governments the Ability to Impose Job-Killing Labor Regulations.** The Isaacson (ACUF Lifetime 8%) amendment to the omnibus economic development bill permits local governments to impose labor regulations even more harmful than those set at the state level, including job-killing provisions such as higher minimum wages, increased paid leave and scheduled work hours mandates. ACU believes employers and employees should be free to negotiate their own benefits and opposes this infringement of the right to contract, which may limit the ability of employees to receive other benefits or job perks, and opposed this amendment. The Senate defeated the amendment on April 29, 2019 by a vote of 31-35. (The bill failed to advance out of conference committee.)

---

10. **HF 2125 Raising Income Taxes on the Middle Class.** The Marty (ACUF Lifetime 7%) amendment to the omnibus tax bill raises income taxes on the middle class in order to increase government tax collections and provide slight tax breaks to low- and high-income earners. Specifically, the amendment restores the tax rate on income earned between \$24,270 to \$79,730 (based on single-filing) to 7.05% which had been set at 6.8%. In exchange, the amendment slightly reduces taxes by about \$50 per year on individuals earning up to \$24,270 and those earning above \$150,000. ACU believes tax increases should be a measure of last resort and that government should reduce spending and opposed this amendment. The Senate defeated the amendment on April 30, 2019 by a vote of 32-35. (The bill failed to advance out of conference committee.)

---

11. **HF 2125 Expanding Cronyism through an Additional Tax Exemption on Farming Machinery.** The Little (ACUF Lifetime 11%) amendment to the omnibus tax bill further expands tax exemptions for farming equipment to include "grain bins." ACU opposes special tax breaks that shift tax burdens to portions of the tax base not favored by government and opposed this amendment. The Senate defeated the amendment on April 30, 2019 by a vote of 32-35. (The bill failed to advance out of conference committee.)

---

12. **HF 2414 Repealing the "Sick Tax."** The Benson (ACU Lifetime 91%) amendment to the omnibus health and human services finance bill repeals the "sick tax," which is a 2% tax on health care providers for nearly all medical services they provide. This is one of the most absurd taxes ever, in which physicians are penalized for providing care to people in need. ACU opposes creating even more financial barriers for those who are sick and in need of services and supported this amendment as a step in the right direction. The Senate adopted the amendment on April 30, 2019 by a vote of 35-30 and the bill was signed into law.
13. **HF 2414 Forcing Assisted Living Facilities to Participate in Medicaid.** The Eken (ACUF Lifetime 19%) amendment to the omnibus health and human services finance bill places financial burdens on assisted living providers such as nursing homes by forcing them to accept patients who are recipients of Medicaid. Specifically, the amendment forces providers to accept applicants regardless of "source of payment." As a result, assisted living providers must abide by the rules and regulations associated with the Medicaid program and accept the below-market reimbursement rates that oftentimes significantly undermine the ability of providers to maintain staffing and resources necessary to provide services. ACU believes that when welfare programs are created, the costs of the programs should be spread across all society, not targeted to one segment of the population, and opposed this amendment. A decisive vote occurred to question whether the amendment was germane. The Senate voted to deem it not germane and defeated the amendment on April 30, 2019 by a vote of 30-33. (A "no" vote supported the ACU position. The bill failed to advance out of conference committee.)
14. **HF 2414 Advancing the State's War on Tobacco by Placing Further Bans on E-Cigarettes.** The Nelson (ACUF Lifetime 66%) amendment to the omnibus health and human services finance bill expands the state's ban on smoking to include vaping and e-cigarettes such as Juul. The amendment provides local governments the authority to impose even more stringent regulations than those set at the state level. ACU believes the use of tobacco and e-cigarettes is a matter of individual liberty, opposes this infringement of that liberty and the right of businesses and workplaces to establish their own smoking policies and opposed this amendment. The Senate passed the amendment on April 30, 2019 by a vote of 53-13. (The bill failed to advance out of conference committee, but the ban was implemented in a separate bill which became law.)
15. **HF 2400 Weakening the Ability of Schools to Maintain Safe and Productive Learning Environments.** The Torres Ray (ACUF Lifetime 8%) amendment to the omnibus education finance bill prevents local school districts from establishing their own disciplinary procedures by mandating that schools use "non-exclusionary" disciplinary policies and practices before they dismiss any student from class due to disruptions or violence. These non-exclusionary disciplinary practices keep disruptive students in the classroom while support, social or emotional services are provided. ACU supports local control over disciplinary procedures to maintain safe and productive learning environments and opposed this amendment. The Senate defeated the amendment on May 1, 2019 by a vote of 31-36. (The bill failed to advance out of conference committee.)
16. **HF 2400 Promoting Racial Discrimination in the Awarding of Taxpayer-Funded Teacher Grants.** The Torres Ray (ACUF Lifetime 8%) amendment to the omnibus education finance bill establishes a new program, called "Grow Your Own," that awards grants, tuition scholarships, and stipends to aspiring teachers, but only if they are persons of color or American Indians. This amendment allows remaining funds to be awarded to those who do not qualify as the aforementioned minorities, but only if they teach within an "economic development region" that is facing a teacher shortage. ACU believes in equal rights under the law for all, that it is the duty of government to ensure all law are applied equally, opposes awarding taxpayer funds based on racial discrimination and opposed this amendment. The Senate defeated the amendment on May 1, 2019 by a vote of 33-34. (The bill failed to advance out of conference committee.)
17. **HF 90 Imposing Excessive Licensing Mandates on Assisted Living Providers.** This bill establishes a new licensing regime for assisted living providers, including 150 pages of new regulations. The bill requires providers to meet numerous standards of service, pay fees and provide their staff with numerous hours of state-compliant training. Additionally, even individuals who do not provide direct care to patients (such as maintenance and janitorial workers) are forced to undergo training if they work in an assisted living facility that provides care to patients who have dementia. ACU opposes opaque and convoluted regulatory regimes that restrict competition and drive up costs, limiting consumer choices and harming families in need of services and opposed this bill. The Senate passed the bill on May 19, 2019 by a vote of 66-1 and the bill was signed into law.

## MINNESOTA HOUSE VOTE DESCRIPTIONS

### 1. **HF 13 Establishing an Equal Rights Amendment to the State Constitution.**

This bill proposes an amendment to the state constitution to declare “equality of rights” based on gender. ACU opposes the ERA due to the fact it has nothing to do with treating individuals equally, but instead is a tool introduced by the Left to provide judges with carte blanche authority to abuse the legal system, including attacking the private sector and providing “rights” to abortions, and opposed this resolution. The House passed the bill on March 7, 2019 by a vote of 72-55. (It failed to advance in the Senate.)

### 2. **HF 349 Expanding the State’s War on Tobacco by Banning E-Cigarettes and Vaping.**

This bill expands Minnesota’s smoking ban to include restrictions on vaping and e-cigarettes such as Juul. Previous law prohibited smoking in restaurants, work places, and public spaces, and this bill expands the prohibition to include vaping and electronic cigarettes. ACU believes the use of tobacco and e-cigarettes is a matter of individual liberty, opposes this infringement of that liberty and the right of businesses and workplaces to establish their own smoking policies and opposed this bill. The House passed the bill on March 14, 2019 by a vote of 100-25. (It failed to advance in the Senate, but the ban was implemented in a separate bill which became law.)

### 3. **HF 1500 Providing Driver’s Licenses to Those Residing in the Country Illegally.**

This bill permits those who reside in the country illegally to obtain driver’s licenses. ACU supports efforts to help the federal government perform its constitutional role in enforcing the nation’s immigration laws, opposed this blatant attempt to encourage individuals to skirt the law and increase voter fraud, and opposed this bill. The House passed the bill on April 5, 2019 by a vote of 74-52. (It failed to advance in the Senate.)

### 4. **HF 50 Imposing Additional, Excessive Regulations on Phone Usage while Driving.**

This bill further expands the state’s ban on talking, texting or web-searching on mobile devices while driving to now also ban the usage of a phone as a navigation device unless it is done in a hands-free manner. Furthermore, the bill imposes numerous other restrictions on how phones are handled while driving and imposes a \$275 fine for violations. ACU opposes this excessive regulation and fining motorists for the responsible use of cellphones absent any other driving safety infractions and opposed this bill. The House passed the bill on April 9, 2019 by a vote of 107-19 and it was signed into law.

### 5. **HF 2400 Violating the Authority of Local School Districts to Determine their Own School Calendars.**

The Ecklund (ACUF Lifetime 23%) amendment violates the authority of local school districts to determine the start date of the school year. Specifically, the amendment eliminates a provision that would allow schools to start as early as August 30. Due to the amendment, schools are unable to start before Labor Day. ACU opposes state efforts to preempt local districts’ authority to determine their own policies and practices in order to meet the needs of students and opposed the amendment. The House passed the amendment on April 23, 2019 by a vote of 93-38. (The bill failed to advance out of conference committee.)

### 6. **HF 2400 Preventing Public and Charter Schools from Being Forced to Provide Sexual Education to Elementary School Children.**

The Bennett (ACUF Lifetime 85%) amendment to the omnibus education finance bill protects parental rights by eliminating a provision that mandates sexual education for children in elementary and secondary public and charter schools. The amendment strips the omnibus bill of mandates that require schools to educate children as young as age seven about “sexual development ... diverse sexual orientations and gender identities ... and methods for preventing” pregnancy. ACU supports strong parental rights, opposes statewide education mandates such as this that supersedes the right of parents to educate their children about reproduction and supported this amendment. The House defeated the amendment on April 23, 2019 by a vote of 58-73. (The bill failed to advance out of conference committee.)

### 7. **HF 2400 Maintaining the Authority of Schools to Maintain Safe and Productive Learning Environments.**

The Bennett (ACUF Lifetime 85%) amendment to the omnibus education finance bill protects the authority of schools and teachers to maintain safe and productive learning environments. Specifically, the amendment revises the “non-exclusionary discipline” mandate to ensure that teachers maintain the authority to remove disruptive students or violent students from the classroom. ACU supports local control over disciplinary procedures to maintain safe and productive learning environments and supported this amendment. The House defeated the amendment on April 23, 2019 by a vote of 56-74. (The bill failed to advance out of conference committee.)

8. **HF 2400 Preventing Early Education Teachers from Being Forced to Become Licensed.** The Franson (ACUF Lifetime 85%) amendment to the omnibus education finance bill ensures school districts are able to hire the most qualified teachers by eliminating a provision within the omnibus which would have forced preschool, pre-kindergarten, school readiness, and early education providers to become licensed. ACU opposes restrictions that prevent schools from hiring the most qualified teachers through the proliferation of licensing requirements that reduce job opportunities and are primarily designed to limit competition and reduce available services and supported this amendment as a step in the right direction. The House defeated the amendment on April 23, 2019 by a vote of 56-76. (The bill failed to advance out of conference committee.)
9. **HF 2400 Requiring Local School Districts to Inform Teachers of their Right to Work without Joining a Union.** The Quam (ACUF Lifetime 83%) amendment to the omnibus education finance bill improves awareness of teachers' right to work without joining a union, as interpreted in the landmark Janus vs. AFSCME Supreme Court decision. Specifically, the amendment requires school districts and charter schools to inform all licensed teachers that they are not required to join a union. ACU supports improving education, expanding employment opportunities and reducing taxpayer educational costs through the right to work and supported this amendment. The House defeated the amendment on April 23, 2019 by a vote of 55-77. (The bill failed to advance out of conference committee.)
10. **HF 2208 Promoting Cronyism and Interfering in Employee Contracts through the Omnibus Economic Development Bill.** This omnibus economic development bill contains hundreds of pages of market distorting subsidies and job-killing regulations. The bill establishes a new paid family leave program that is expected to cost \$1 billion annually. Additionally, it reimposes net neutrality internet regulations that were repealed at the federal level by FCC Chairman Ajit Pai and the Trump administration and also forces taxpayers to subsidize broadband expansion for select individuals. Furthermore, it advances a 100% carbon-free agenda by 2050 that includes millions of dollars for renewable energy initiatives. Finally, the bill includes a litany of subsidies and tax credits to government-favored industries and businesses, especially the farming industry and select startup businesses. ACU opposes paid leave mandates which interfere in private contracts and limit the ability of employees to negotiate their own benefits and job perks, opposes market distorting subsidies to select industries and businesses that drive up consumer costs, and opposed this bill. The House passed the bill on April 24, 2019 by a vote of 74-59. (The bill failed to advance in the Senate with these provisions.)
11. **HF 2208 Protecting Employees from Job-Killing Local Government Employer Mandates.** The Baker (ACUF Lifetime 85%) amendment to the omnibus economic development bill prohibits local governments from adopting or enforcing employer mandates—including minimum wage, scheduled work hours and employee benefits—that are more demanding of employers than mandates set at the state level. ACU believes employers and employees should be free to negotiate their own benefits, and opposes infringements of the right to contract, which may limit the ability of employees to receive other benefits or job perks, and supported this amendment as a step in the right direction. The House defeated the amendment on April 24, 2019 by a vote of 56-76.
12. **HF 2125 Imposing \$3 Billion in New Taxes.** This bill imposes over \$3 billion in additional taxes over four years. The bill significantly increases tax liabilities by eliminating various deductions for individuals and businesses and increasing the estate tax by lowering the exemption for estates (from \$3 million to \$2.7 million). Additionally, the bill raises the top marginal tax rate on capital gains and dividend income to 12.85%, the second highest rate in the country behind California. Furthermore, the bill raises the state property tax and "sin tax" on sales of cigarettes, which is disproportionately harmful to individuals earning lower incomes. ACU believes raising taxes should be a measure of last resort, opposes these economically devastating taxes which punish success and suppress commerce, factors which lead to rising consumer costs and reduced availability of goods and services, and opposed this bill. The House passed the bill on April 25, 2019 by a vote of 74-55. (The bill failed to advance out of conference committee.)
13. **HF 2125 Raising Awareness of the State's Out-of-Control Taxation.** The Garofalo (ACUF Lifetime 88%) amendment to the omnibus tax bill directs the state to publish a report detailing the effects the state's tax policy has on out- and in-migration from the state. The report must detail the net migration broken down by adjusted gross income and include recommended changes to Minnesota's tax code to reduce out-migration from the state. According to the Tax Foundation, the state ranks as one of the 10 most burdensome states for state and local tax burdens. ACU supports efforts to encourage economic prosperity by limiting the state's unnecessary and irresponsible tax burdens and supported this amendment as a step in the right direction. The House defeated the amendment on April 25, 2019 by a vote of 54-75. (The bill failed to advance out of conference committee.)

**14. HF 2414 Reducing Fraud by Strengthening the Inspector General's Office.** The Franson (ACUF Lifetime 85%) amendment to the omnibus health and human services finance bill redirects funding to establish four additional positions within the Office of the Inspector General, Financial Fraud and Abuse Investigation Division to investigate and combat fraud committed by recipients of human services funds such as child care assistance. ACU supports efforts to help people live happier, healthier more productive lives, supports efforts to ensure scarce taxpayer resources are allocated to those truly in need of services, and supported this amendment. The House defeated the amendment on April 25, 2019 by a vote of 55-73. (The bill failed to advance out of conference committee.)

---

**15. HF 2414 Protecting the Unborn by Banning Abortions once a Fetal Heartbeat is Detected.** The Miller (ACUF Lifetime 87%) amendment to the omnibus health and human services finance bill bans abortions once a fetal heartbeat is detected, unless the life of the mother is in jeopardy. ACU believes abortion is a human tragedy, supports restrictions on the practice and supported this amendment. The House defeated the amendment April 25, 2019 by a vote of 58-69. (The bill failed to advance out of conference committee.)

---

**16. HF 2414 Banning Abortions once an Unborn Child is Pain Capable.** The Scott (ACUF Lifetime 92%) amendment to the omnibus health and human services finance bill bans abortions once the unborn child is 20 weeks old and is able to feel pain. ACU believes abortion is a human tragedy, supports restrictions on the practice and supported this amendment. The House defeated the amendment on April 25, 2019 by a vote of 59-70. (The bill failed to advance out of conference committee.)

---

**17. HF 2414 Completing the Socialization of Health Care through Medicare for All.** The Gruenhagen (ACUF Lifetime 87%) amendment to the omnibus health and human services finance bill is designed to place lawmakers on record for their position on "Medicare for All" by introducing a universal health care plan. The amendment establishes "The Minnesota Health Plan," a program mandating a single-payer health care system which provides full health care to everyone. The government would set its premiums (based on income and ability to pay) and reimbursement rates in addition to assessing a new business health tax. The coverage would include a host of benefits, including dental, vision, hearing, prescription drugs, adult day care and assisted living services. ACU opposes all forms of socialism—including Medicare for All, which astronomically increases health care costs and reduces quality—supports a free market in health care and providing patients with greater flexibility to select the health care services that best suit their needs and opposed this amendment. The House defeated the amendment on April 25, 2019 by a vote of 3-124. (A "no" vote supported the ACU position. The bill failed to advance out of conference committee.)

---

**18. HF 1555 Protecting Taxpayers from Boondoggle Light Rail Projects.** The Bahr (ACUF Lifetime 88%) amendment to the omnibus transportation finance bill eliminates funding to study the expansion of the Northstar Commuter Rail Service and other passenger rail transportation projects. Northstar is a money-losing operation which generates only 12% of its revenue from passenger fares and has seduced the legislature to force taxpayers and motorists to pay the remaining operating costs. ACU believes a taxpayer-funded study is wholly unnecessary to recognize the untenable business model of Northstar, opposes rewarding a failing company for its ability to siphon money from taxpayers by doling out even more taxpayer funds to expand its money-losing operations and supported this amendment. The House defeated the amendment on April 26, 2019 by a vote of 46-78. (The bill failed to advance out of conference committee.)

---

19. **SF 2226 Expanding Cronyism and Wasteful Spending.** The omnibus agricultural and housing finance bill expands cronyism and wasteful spending by doling out tens of millions of taxpayer funds to government-favored industries and businesses. The wasteful and corrupt appropriations include: nearly \$4 million in subsidies to the Agricultural Development and Marketing program to promote “Minnesota grown” produce; \$30.5 million to fund broadband development for those who choose to live in rural areas of the state; tens of millions of dollars for costly “affordable” housing programs that distort the marketplace; and tens millions of dollars in subsidies to the farming and bioenergy industries. ACU opposes cronyism which forces taxpayers to invest in industries and businesses favored by government and places those unwilling or unable to “pay for play” at competitive disadvantages and opposed this bill. The House passed the bill on April 26, 2019 by a vote of 99-28. (The bill failed to advance out of conference committee.)
- 
20. **HF 1555 Requiring Voter Approval to Implement an Additional 0.5% Sales Tax.** The Runbeck (ACUF Lifetime 85%) amendment to the omnibus transportation finance bill requires local voter approval in the 2020 general election in order to implement an additional 0.5% increase of the state sales tax on all retail sales within the state’s metropolitan area. Under the bill, proceeds of the tax increase must be used to fund transportation services. ACU believes tax increases should be a measure of last resort, supports voter referendums for approval of tax increases to ensure the will of the people is carried out and supported this amendment. The House defeated the amendment on April 29, 2019 by a vote of 57-74. (The bill failed to advance out of the conference committee.)
- 
21. **HF 1555 Requiring Voter Approval to Hike the Gas Tax by 20 Cents per Gallon.** The Torkelson (ACUF Lifetime 86%) amendment to the omnibus transportation finance bill requires local voter approval in the 2020 election in order to nearly double the gas tax (a 20 cent per gallon increase). The bill raises the tax by 5 cents per year until 45 cents per gallon is achieved in 2022, at which point it continues to rise based on the rate of inflation. ACU believes tax increases should be a measure of last resort, supports voter referendums for approval of tax increases to ensure the will of the people is carried out, especially considering this provision would impose on Minnesotans the fourth highest gas tax in the country, and supported this amendment. The House defeated the amendment on April 29, 2019 by a vote of 56-74. (The bill failed to advance out of conference committee.)
- 
22. **SF 802 Infringing Second Amendment and Due Process Rights.** The omnibus judiciary and public safety bill contains two key provisions which infringe Second Amendment and due process rights. Specifically, the bill allows law enforcement officers and county attorneys to submit an ex-parte (i.e., one-sided) petition to a court for the temporary seizure of all firearms held by the accused if they are considered to be a danger to themselves or others simply due to their possession of a firearm. Additionally, the bill establishes a new background check mandate for private sales or transfers of pistols and semi-automatic firearms. ACU opposes the seizure of any property, including firearms, without due process and on the basis of unchallenged accusations, supports the founders’ belief in the Second Amendment and opposed this bill. The House passed the bill on April 29, 2019 by a vote of 70-64. (The bill failed to advance out of conference committee.)
- 
23. **SF 802 Establishing a Taskforce to Reform the Asset Forfeiture System.** The Moller (ACUF Lifetime 10%) amendment to the omnibus judiciary and public safety bill establishes a taskforce comprising 13 members (provided without compensation) to study the current state laws relating to forfeiture of property in connection with criminal activity. Upon conclusion of the study, the taskforce is directed to present findings to the legislature with recommended reforms designed to strengthen due process and property rights as well as prevent “policing for profit.” The Nolan Center for Justice is a leading authority on this issue and works to pursue policies that cut crime, reduce the size and scope of government and responsibly reduce incarceration rates. ACU opposes the seizure of any property without due process, supports strong protections against asset forfeiture abuse and believes a criminal conviction should be required in order for an individual’s property to be seized and supported this amendment as a step in the right direction. The House adopted the amendment on April 29, 2019 by a vote of 95-35. (The bill failed to advance out of conference committee.)
- 
24. **SF 802 Improving Transparency of Government Grants.** The Poston (ACUF Lifetime 84%) amendment to the omnibus judiciary and public safety bill requires nonprofit groups which receive grant funding to be accountable to taxpayers. Specifically, the amendment requires grantees to provide an accounting of how taxpayer grant funding was spent, a detailed description of their budget and a list of staff and board member salaries. ACU supports improving transparency of all taxpayer funded grant projects, especially considering the legislature appropriates billions of dollars each year to privately-owned nonprofits, corporations and small businesses, and supported this amendment. The House defeated the amendment on April 29, 2019 by a vote of 58-72. (The bill failed to advance out of conference committee.)
-

**25. SF 802 Strengthening “Stand Your Ground” Self-Defense Law.** The Drazkowski (ACUF Lifetime 92%) amendment to the omnibus judiciary and public safety bill strengthens the state’s self-defense laws (commonly referred to as “Stand Your Ground”) by providing greater detail about the actions and circumstances in which individuals may use deadly force to defend themselves. ACU supports strong self-defense laws and the founders’ belief in the Second Amendment and supported this amendment. The House defeated the amendment on April 29, 2019 by a vote of 59-74. (The bill failed to advance out of conference committee.)

---

**26. SF 2227 Disenfranchising Voters by Mandating Presidential Candidates Disclose their Tax Returns.** The Long (ACUF Lifetime 7%) amendment to the omnibus state government appropriations bill is designed to obstruct our democratic process and disenfranchise voters by forcing candidates for president to disclose their tax returns in order to appear on the ballot in Minnesota. Under the bill, a candidate who does not disclose at least the past five years of their personal income tax returns is prevented from appearing on the election ballot. ACU opposes efforts to disenfranchise voters, rejects the elitist notion that Minnesota voters are incapable of assessing candidates for office without information ordained from the legislature’s mandates and opposed this amendment. The House adopted the amendment on April 30, 2019 by a vote of 80-51. (The bill failed to advance out of conference committee.)

---

**27. SF 2314 Establishing a Ban on Wolf Hunting.** The Fischer (ACUF Lifetime 9%) amendment to the omnibus environment and natural resources bill establishes a statewide ban on the hunting of wolves. While the federal Endangered Species Act of 1973 once banned hunting of wolves, the US Fish & Wildlife Services has proposed removing the ban in light of stable wolf populations. ACU supports the right to hunt responsibly and allowing farmers and ranchers the ability to protect livestock from predators such as wolves and opposed this amendment. The House passed this amendment on April 30, 2019 by a vote of 66-65. (The bill failed to advance out of conference committee.)

---

**28. HF 1733 Preventing Municipalities from Imposing Additional, Excessive Regulations on Pesticides.** The Hamilton (ACUF Lifetime 75%) amendment to the omnibus agricultural policy bill prevents local governments from imposing their own regulations on the use or application of pesticides. ACU supports efforts to protect farmers and property owners from a patchwork of local regulations more stringent than imposed at the state level and supported this amendment. The House defeated the amendment on May 1, 2019 by a vote of 58-73 and the bill was signed into law.

---

**29. HF 286 Mandating Railroad Train Crew Sizes.** This bill prevents any train or locomotive from being operated in the state unless a crew of at least two individuals operates the train. ACU opposes these mandates, especially at a time of innovation and technological advancement, which increase the cost of doing business and force rail companies to comply with myriad, varying requirements as they transport goods from state to state and opposed this bill. The House passed the bill on May 15, 2019 by a vote of 77-52. (It failed to advance in the Senate.)

---

**30. HF 90 Imposing Excessive Licensing Mandates on Assisted Living Providers.** This bill establishes a new licensing regime for assisted living providers, including 150 pages of new regulations. The bill requires providers to meet numerous standards of service, pay fees and provide their staff with numerous hours of state-compliant training. Additionally, even individuals who do not provide direct care to patients (such as maintenance and janitorial workers) are forced to undergo training if they work in an assisted living facility that provides care to patients who have dementia. ACU opposes opaque and convoluted regulatory regimes that restrict competition and drive up costs, limiting consumer choices and harming families in need of services and opposed this bill. The House passed the bill on May 19, 2019 by a vote of 125-6 and the bill was later signed into law.
